

HYBRID SEED CORN

991ZGT

PRODUCT SNAPSHOT

A strong-performing hybrid with excellent root strength and top-end yield potential. Built to handle stress, it performs well across varying environments and is suited for both irrigated and dryland acres.

VALUE HIGHLIGHTS

Productive across regions and population ranges—from 15,000 to 38,000—this hybrid brings dependable drought tolerance and consistent performance in tough years. While it handles stress well, Goss's wilt can be a concern in high-pressure areas and should be considered in placement decisions.

GROWING ENVIRONMENT

Adaptable to both lower and moderate-yield acres and across a variety of soil types.

MANAGEMENT RECOMMENDATIONS

Wide range of plant population options.

Specs *Maximum Score: 5

Drought Tolerance*	4.5
Fungal Plant Health*	3
Brittle Snap*	4
Drydown*	4.5
Plant Population Recommendation	12,000 to 38,000
Use	Grain
Relative Maturity	99 Days
GDUs to Silking	1,230
GDUs to Black Layer	2,375
Ear Type	Semi Flex
Plant Height	Short
Test Weight	Fair
Corn on Corn	Average

Early Plant Vigor	Excellent
Root Strength	Excellent
Stalk Strength	Excellent
Goss' Wilt	Average
Gray Leaf Spot	Average
Corn Leaf Blight	Average
Stalk Anthracnose	Average
