

HYBRID SEED CORN

881SGT

PRODUCT SNAPSHOT

A versatile grain hybrid with strong drought tolerance and impressive yield potential when conditions are favorable. Adaptable across a wide range of soil types and responsive in both high- and low-population systems.

VALUE HIGHLIGHTS

Strong ear flex supports reliable performance at lower populations, while a solid root system and standability make it a reliable choice at higher densities. This hybrid brings stability and top-end potential to diverse acres.

GROWING ENVIRONMENT

Adaptable to both lower-yield and high-yield acres and across a variety of soil types.

MANAGEMENT RECOMMENDATIONS

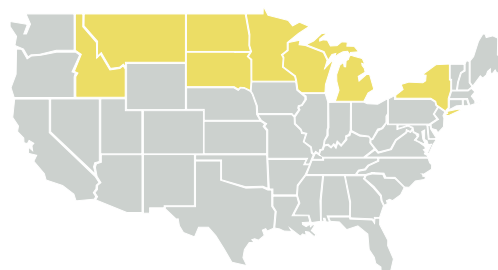

Solid late-season plant health.

Specs *Maximum Score: 5

Drought Tolerance*	4.5
Fungal Plant Health*	3.5
Brittle Snap*	3.5
Drydown*	4.5
Plant Population Recommendation	12,000 to 36,000
Use	Grain/Silage
Relative Maturity	88 Days
GDU's to Silking	1,110
GDU's to Black Layer	2,270
Ear Type	Flex
Plant Height	Medium
Test Weight	Average
Corn on Corn	Very Good

Early Plant Vigor	Very Good
Root Strength	Excellent
Stalk Strength	Very Good
Goss' Wilt	Average
Gray Leaf Spot	Average
Corn Leaf Blight	Very Good
Stalk Anthracnose	Good

Idaho, Michigan, Minnesota, Montana, New York,
