

HYBRID SEED CORN

1052ZGT

PRODUCT SNAPSHOT

A rugged Western hybrid built for extreme heat and drought. Exceptional greensnap resistance, deep kernels, and strong ear girth help maintain performance on tough acres, with a full flex ear that responds well at lower populations.

VALUE HIGHLIGHTS

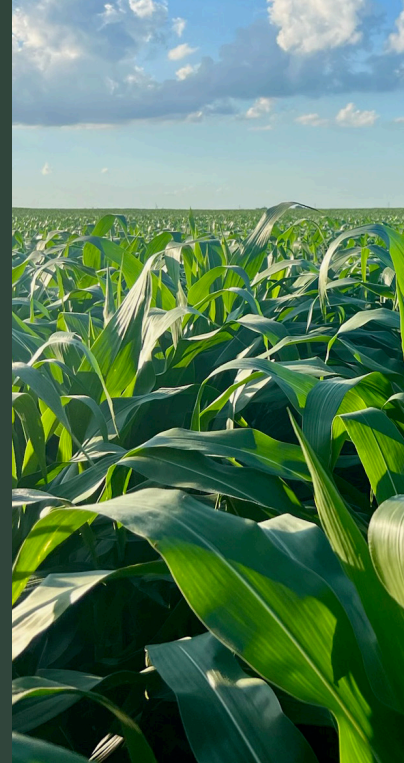

Exceptional heat and drought tolerance, strong greensnap resistance, and impressive kernel depth for tough Western acres.

GROWING ENVIRONMENT

Best fit on marginal to productive soils in hot, dry environments.

MANAGEMENT RECOMMENDATIONS

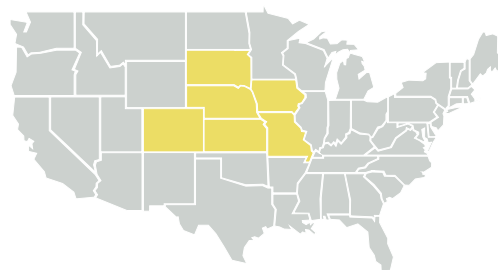

Use lower to moderate populations to take advantage of ear flex and support late-season standability.

Specs *Maximum Score: 5

Drought Tolerance*	4.5
Fungal Plant Health*	3
Brittle Snap*	4.5
Drydown*	3.5
Plant Population Recommendation	10,000 to 34,000
Use	Grain/Silage
Relative Maturity	105 Days
GDU's to Silking	1,290
GDU's to Black Layer	2,520
Ear Type	Flex
Plant Height	Medium
Test Weight	Average
Corn on Corn	Very Good

Early Plant Vigor	Very Good
Root Strength	Good
Stalk Strength	Good
Goss' Wilt	Excellent
Gray Leaf Spot	Average
Corn Leaf Blight	Good
Stalk Anthracnose	Average

Colorado, Iowa, Kansas, Missouri, Nebraska, South Dakota
