

HYBRID SEED CORN

1162RGT

PRODUCT SNAPSHOT

A tall Southern hybrid with strong yield potential, excellent standability, and dependable performance under heat and drought stress. Heavy test weight grain and a semi-flex ear support strong grain production, while its size and starch content provide dual-purpose silage potential.

VALUE HIGHLIGHTS

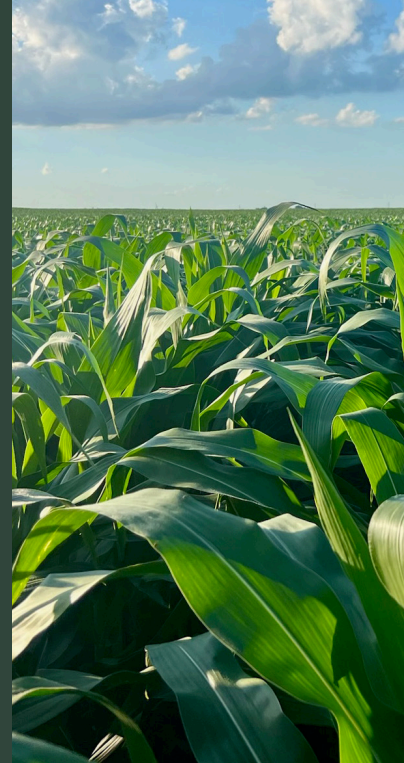

Strong Southern fit with excellent standability, heavy test weight grain, and dependable heat and drought tolerance.

GROWING ENVIRONMENT

Performs well across the South in all soil types, irrigated and dryland.

MANAGEMENT RECOMMENDATIONS

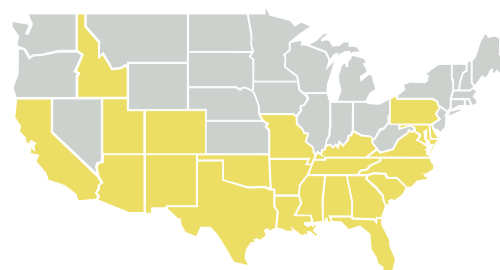

Semi-flex ear allows population flexibility. Strong roots and stalks support taller plant stature; tight husks provide added ear protection.
