

HYBRID SEED CORN

1172RGT

PRODUCT SNAPSHOT

A true workhorse for the toughest, driest acres. This tall full-flex hybrid delivers dependable performance on marginal soils, with strong plant health, heavy test weight grain, and long, thick husks that help protect grain quality under stressful Southern conditions.

VALUE HIGHLIGHTS

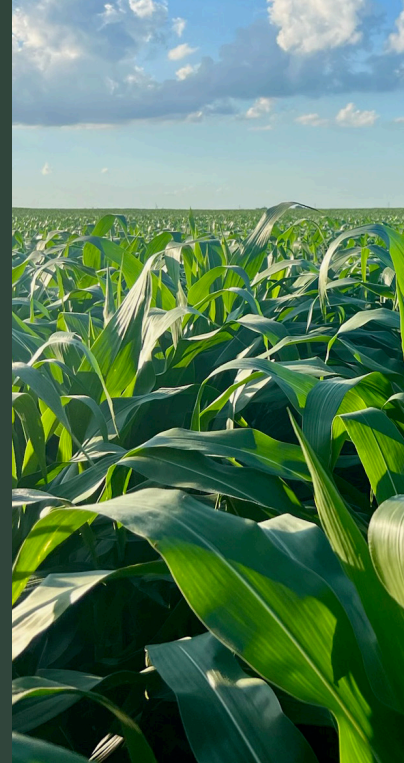

Dependable performance on marginal acres, strong drought tolerance, and heavy test weight grain for tough environments.

GROWING ENVIRONMENT

Best suited for marginal, hot, and dry acres. Avoid highly productive irrigated ground.

MANAGEMENT RECOMMENDATIONS

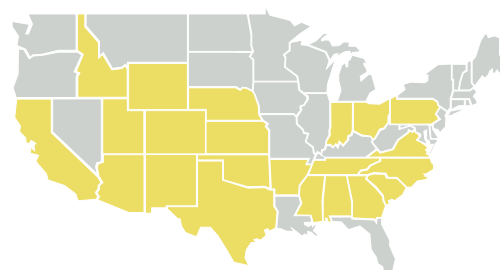

Keep off the highest-yield environments. Use where consistency under stress matters more than maximum top-end yield.

Specs *Maximum Score: 5

Drought Tolerance*	4.5
Fungal Plant Health*	4
Brittle Snap*	3.5
Drydown*	3.5
Plant Population Recommendation	16,000 to 32,000
Use	Grain/Silage
Relative Maturity	117 Days
GDUs to Silking	1,470
GDUs to Black Layer	2,800
Ear Type	Flex
Plant Height	Tall
Test Weight	Very Good
Corn on Corn	Good

Early Plant Vigor	Good
Root Strength	Good
Stalk Strength	Good
Goss' Wilt	Very Good
Gray Leaf Spot	Good
Corn Leaf Blight	Very Good
Stalk Anthracnose	Very Good

Alabama, Arizona, Arkansas, California, Colorado, Georgia, Idaho, Indiana, Kansas, Mississippi, Nebraska, New Mexico, North Carolina, Ohio, Oklahoma, Pennsylvania, South Carolina, Tennessee, Texas, Utah, Virginia, Wyoming
