

HYBRID SEED CORN

1102E

CONVENTIONAL

PRODUCT SNAPSHOT

A well-balanced hybrid that combines strong yield potential with consistent performance across a wide range of environments. Semi-flex ears with excellent kernel depth contribute to impressive grain production, while a solid disease package and above-average agronomics support dependable results. Its moderate plant stature, favorable ear placement, and dual-purpose capability make it a versatile option for both grain and silage production.

VALUE HIGHLIGHTS

Strong yield potential, excellent agronomics, and dependable performance for grain or silage use.

GROWING ENVIRONMENT

Performs well across all yield environments

MANAGEMENT RECOMMENDATIONS

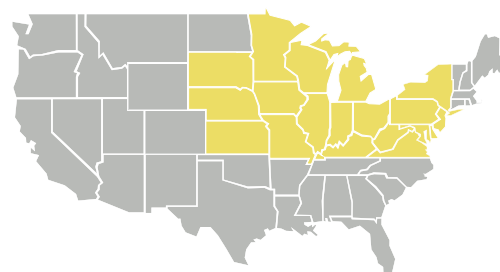

Put it to the coals and let it rip.
