

HYBRID SEED CORN

1122E

CONVENTIONAL

PRODUCT SNAPSHOT

A high-performance hybrid with tremendous top-end yield potential and outstanding ear flex, allowing it to excel at medium to moderately low planting populations. Strong southern adaptation and broad east-to-west fit make it a key lineup product across a range of environments. A solid disease package, including strong tolerance to NCLB and Goss's Wilt, supports consistent performance, while its dual-purpose capability adds versatility for both grain and silage production.

VALUE HIGHLIGHTS

Industry-leading yield potential, exceptional ear flex, and strong performance across diverse environments.

GROWING ENVIRONMENT

Performs well across the South in all soil types, irrigated and dryland.

MANAGEMENT RECOMMENDATIONS

Wide range of plant population options.

Specs *Maximum Score: 5

Drought Tolerance*	4.5
Fungal Plant Health*	4
Brittle Snap*	3.5
Drydown*	3
Plant Population Recommendation	16,000 to 34,000
Use	Grain/Silage
Relative Maturity	112 Days
GDUs to Silking	1360
GDUs to Black Layer	2597
Ear Type	Flex
Plant Height	Medium Tall
Test Weight	Very Good
Corn on Corn	Very Good

Early Plant Vigor	Good
Root Strength	Good
Stalk Strength	Very Good
Goss' Wilt	Excellent
Gray Leaf Spot	Excellent
Corn Leaf Blight	Excellent
Stalk Anthracnose	Very Good
